Dyeing with Plants and trees of Shimane

The Iwami Art Museum focuses on "fashion" as its main activity, showcasing costumes, prints, paintings, and more throughout the year. Among these, the works of Hanae Mori, a fashion designer from the Iwami region, are one of the highlights of the collection.

Through the workshop, you can experience the charm of Shimane's natural materials! We hope this workshop will also provide an opportunity to think about the Japanese clothing culture supported by nature and its aesthetic sense and sensibility.

In honor of Hanae Mori's reference to Shimane's nature as a source of her creative inspiration, we will be holding a workshop on herb dyeing using plants that grow in Shimane.

Date:

Wed., Oct. 22 and Sat., Nov. 29, 2025

Venue: Shimane Arts Center "Grand Toit" Multi-purpose Gallery

1st session 10:00 - 12:00
